Bhola - 8300 ,Bangladesh

OBJECTIVE

A skilled and enthusiastic web developer seeking a position to utilize my skills in HTML, CSS, JavaScript, and server-side technologies to create dynamic and responsive websites. Committed to delivering high-quality and user-friendly web solutions.

SKILLS

- Languages: HTML, CSS, JavaScript
- Frameworks/Libraries: React, Bootstrap, Tailwind CSS, Node.js, Express.js
- Databases: MongoDB
- Tools: Visual Studio Code
- Other: Responsive Web Design
- Soft skills: Hard working, Communication, Time management

PROJECTS

PetPalsAdopt Website

[Live Link](#) || [Client Site](#) || [Server Site](#)

Description: Developed a full-stack website titled "PetPalsAdopt" for pet adoption services. Implemented a secure payment method for donations and adoption fees. Designed a user-friendly interface for easy navigation and responsive design for optimal viewing across devices.

Technologies Used: HTML, CSS, JavaScript, React, Node.js, Express.js, MongoDB,JWT

Key Achievement :

- Integrated a secure payment gateway for processing adoption fees and donations.
- Utilized MongoDB for database storage and CRUD operations.
- Implemented user authentication and authorization using JWT.

Backpack Traveler Blog Website

[Live Link](#) || [Client Site](#) || [Server Site](#)

Description: Developed a dynamic blog website titled "Backpack Traveler" for sharing travel experiences and tips. Implemented features such as user authentication, CRUD operations for blog posts, and commenting functionality. Designed a responsive layout for optimal viewing across devices.

Technologies Used: HTML, CSS, JavaScript, React, Node.js, Express.js, MongoDB,JWT

Key Achievement :

- Implemented user authentication using JWT for secure login and registration.
- Utilized MongoDB for database storage and CRUD operations.
- Designed an intuitive user interface for seamless navigation and reading experience.

Luxury Restaurant Website

[Live Link](#) || [GitHub Link](#)

Description: Developed a sophisticated website for a luxury restaurant, showcasing its menu, ambiance, and reservation system. Implemented responsive design for optimal viewing across devices and integrated a content management system for easy updates.

Technologies Used: HTML, CSS, JavaScript, React, Node.js, Express.js, MongoDB,JWT

Key Achievement :

- Designed a visually stunning user interface to reflect the restaurant's brand identity.
- Implemented a secure reservation system with backend database integration.
- Optimized website performance for fast loading times and smooth user experience.
